

International Organization for Migration (IOM)  
The UN Migration Agency

## ZERO DRAFT PLUS

In close cooperation with the Office of the Special Representative of the Secretary General for International Migration, IOM supported the first two rounds of negotiations of the Global Compact for safe, orderly and regular migration (GCM) in February and March 2018.

During the first round of negotiations, Member States commented on the GCM's "zero draft" reflecting their governments' positions. The co-facilitators have elaborated a "zero draft plus", including technical updates and clarifications.

During the second round of negotiations concluded last week, Member States discussed conceptual issues (e.g. difference between migrants and refugees); as well as the GCM's implementation, capacity-building, follow-up and review. The co-facilitators plan to revise the draft and share an updated version for the third round of negotiations in April.
